Over 5,000 Visitors Expected for Convention During the Week of January 5.

(Specia! to The Herald-Republican.) Ogden, Dec. 26 .- With the rush of Christmas over, Ogden is turning its undivided attention to the Wool Growers' convention, now looming up on the immediate horizon. The various committees, subordinate to the board of control, will be occupied during the present week in putting the finishing touches to the elaborate plans for accommodation and entertainment of the 5,000 visitors expected to be the guests of the city during the week commencing January 5. Reservations at the various hotels and rooming houses are entirely exhausted and the committee on ledging and accommodations has been compelled to call upon citizens for hundreds of rooms in the resident section, after the manner of accommodating the G. R. visitors in Salt Lake last sum-

The convention, which is the forty-sixth annual gathering of the wool grow-ers of America, bids fair to be the most important in the history of the sheep in-dustry in the west. Issues of national importance will come up for discussion and extensive heavilys are expected to and extensive benefits are expected to accrue to the sheep industry from the action taken in regard to these. As al-ways has been the case since the adoption of the forest conservation policy, the chief issue expected to come before the convention is that of grazing privileges and restrictions on the national forest

More or less ill feeling and continual argument have risen out of this question. Less restrictive measures and more equal rights to all interests will be the aim of the convention in the matter of the forestry policy. It has been charged by many sheepmen that the forestry de-partment has favored the cattle inter-ests at the expense of the sheep indus-try. These charges will be aired and adjusted.

The fact that the annual convention of foresters of district No. 4 will be held in Ogden immediately after the wool convention is expected to facilitate the handling of those questions.

Business will not be the sole aim of the

two important gatherings. Entertainment of various kinds has been provided. The Mid-Winter Sheep Show will be one of the chief features, and one which is adding to the interest being displayed in the convention. Sheep of every variety known to the world will be on exhibition.

his text is one of the most obscure in the whole Bible. It seems to mean a

word, written or spoken; but it also seems to mean the idea behind the written or

The Vagabond King," a play that was "The Vagabond King," a play that was a popular favorite when romantic drama was in vogue, was presented for the first time in this city at the Shubert theatre last night. The company producing the play is headed by Miss Lorle Palmer, who made a good impression here last season in "The Wolf." Other members of the cast are well known locally. Alfred Swenson is a Salt Lake boy, Miss Frances Hooper is a social favorite in the city, and Luke Cosgrave is an old-time stock man who has appeared many times before Salt Lake audiences in the past.

The play is in three acts, the first be Ine play is in three acts, the first being played in King Hector's hunting

The second act, played in the palace garden, complicates the plot by introducing the proposed bride of the king, the Princess Olivia of Beronia. She comes to the cap-ital disguised, to meet the king, wishing to discover the true character of the man she is to marry. The pretender falls in love with the princess and she with him. Alfred Swenson, who plays the dual parts of Gustavus Venner, the vagabond, and Hector, king of Kahnburg, is deserving of much credit for his interpretation of the roles. He is excellent in the strongly dramatic scenes, but his familiar manner is not always suited to either the strongly dramatic scenes, but his familiar manner is not always suited to either the real or assumed character of the king. It is commonplace, and at times Mr. Swenson might be accused of taking it easy and not keeping himself up to the demands of the part he is playing. GREATEST IN HISTORY New York, Dec. 26.—The total public penefactions in the United States in the ast twelve months was \$141,250,000-\$40,003,000 greater than any previous year in the history of the country, according to statistics compiled by a New York newspaper. The amount this year was more than twice as large as was given away last year, following the period of 190? The principal benefactors in 1909 have been the late John S. Kennedy of New York, \$26,550,000; John D. Rockefeller, thild can thus know God and follow Him. "A Girl at the Helm," enjoys the endorsement of a six months' stay in Chicago, and was pronounced one of the most worthy successes of the many popular musical comedy production of the La Salle theatre, the home of musical productions. The book and lyrics were written by Robert B.
